Biswajit Muduli

Full Stack Developer || MERN Stack developer
Bhubaneswar, Odisha, India

Summary

I'm a passionate MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, Node.js, and Next.js. I have completed multiple real-world projects, including BgenAI (an AI-powered chatbot), a fully functional e-commerce web app, and a weather forecasting application. I specialize in RESTful APIs, JWT authentication, and secure backend development using tools like Bcrypt.js and Mongoose. My projects follow responsive design, component-based architecture, and clean coding practices for scalability and performance optimization. I'm skilled in Git, GitHub, Postman, Agile development, debugging, and version control, along with cloud deployment using Render and Netlify. I enjoy problem-solving, exploring new technologies, and delivering reliable, impactful digital solutions.

Education

Centurion University of Technology and Management
Master of Computer Applications - MCA, Software Technology · (October
2022 - July 2024)
